Hands-on Lab: Create a User Story for Login and Logout for a Website

Use this template to enter your solution. You may modify the template to include more information.

Solution

User types

Identify user types for logging in and out of the QuickShop website. Refer to the instructions for task 1 in the lab instructions.

User type 1	Registered users
User type 2	
User type 3	
User type 4	

Scenarios for each user type

Login scenarios

List the login scenarios for each user type. Refer to the instructions for task 2 in the lab instructions.

Registered users	• Scenario 1 • Scenario 2 • Scenario 3
User type 2	• Scenario 1 • Scenario 2 • Scenario 3
User type 3	• Scenario 1 • Scenario 2 • Scenario 3

Logout scenarios

List logout scenarios for each user type.

User Type	Logout scenarios
Registered users	• Scenario 1 • Scenario 2 • Scenario 3
User type 2	• Scenario 1 • Scenario 2 • Scenario 3
User type 3	• Scenario 1 • Scenario 2 • Scenario 3

User stories, acceptance criteria, and rationale

- *First, enter the user stories for the given login and logout scenarios (Refer to Task 3 instructions).*
- *Review and refine them (Refer to Task 4 instructions).*
- *Enter the acceptance criteria for your user story (Refer to Task 5 instructions).*
- *Enter the rationale for each user story (Refer to Task 6 instructions).*

You may add rows to add more users, scenarios, and user stories.

User stories for login on Quickshop

User type	User story ID	User scenario	User story	Acceptance criteria	Rationale
Registered user	US1	Successful login	As a registered user, I want to log in with my email and	Given valid credentials, when I click 'Login,' I should be	This user story adds significant value by enabling users to access their accounts, which is fundamental for

			password so that I can access my account and view my orders.	redirected to my account dashboard.	any e-commerce platform. Ensuring a smooth login experience fosters user satisfaction and retention.
Registered user	US2	Incorrect credentials			
Registered user	US3	Password reset			

User stories for logout on QuickShop

User type	User story ID	User scenario	User story	Acceptance criteria	Rationale
Registered user	US4	Successful logout			
Registered user	US5	Confirm logout
